

Green Isle Community School Policy 509.2
Independent Charter School District #4144

Adopted: 5/24/2006

Revised: 12/15/11, 03/20/014, 2/15/17

509.2 EARLY ADMISSION POLICY

I. PURPOSE

This policy is to set forth the early admission procedure.

II. GENERAL STATEMENT OF POLICY

- A. Eligible students are those children who will be 5 years of age after September 1st of the applicable school year.
- B. Conference meeting with the family, student and school director is required prior to consideration for early entrance.
- C. Recommendation from the child's current preschool setting specifically asking for feedback about the social and academic skill level of the child. May include an interview/visit with the preschool provider.
- D. Complete the Kindergarten Assessment Tool to assess student knowledge of Kindergarten curriculum.
- E. The family will be required to independently complete a psychological assessment that demonstrates school readiness. This assessment needs to be administered by a Ph.D. Psychologist (minimally) specializing in child development. This testing needs to include at least one standardized intelligence test, one parent observational survey and one social/emotional psychometric evaluation.
- F. Upon early admission into Kindergarten, the expectation for the child is to complete Kindergarten and go on to the first grade the following year. However, if this child does not adjust to school, the director may recommend that the family withdraw their child. The child would then re-enroll in school at the regular age/time.
